COMPLEX TORTS

Larson · King is regularly hired to handle cases involving complex torts. Clients value our efficiency and our candid, well-reasoned early evaluation. We are fearless litigators and do not change our evaluation on the eve of trial. We do not overvalue a matter to make ourselves look good and do not undervalue cases to take an unreasonable position. We pride ourselves on our client service, providing unparalleled accessibility and regular communication.

We are often hired to handle the “worst of the worst” injury cases. Our experience in this area is extensive and encompasses claims involving:

- Transportation and construction accidents
- Failure of medical devices and other products
- Prescription drugs
- Brain injuries
- Quadriplegics
- CRPS (formerly RSD)
- Sexual assaults
- Electrical contact
- Paralysis
- Limb loss

We are litigators first and foremost and stand ready to take a case to trial. We are well-acquainted with the tactics of the local trial bar as well as the national personal injury crusaders. But we are not driven to litigate. We bring years of experience counseling our clients and developing strategies to *avoid* litigation when that is the preferred course.
